

Connecting the World to a Higher Standard

## **Siemon LightVerse® Copper/Fiber Combo Patch Panel Wins 2024 BIG Innovation Award**

**Watertown, CT** – The Siemon Company, a global leader in network infrastructure solutions, proudly announces that its LightVerse Copper/Fiber Combo Patch Panel has been named a winner in the [2024 BIG Innovation Awards](#) presented by the Business Intelligence Group.

The LightVerse Copper/Fiber Combo Patch Panel breaks new ground in space-constrained data centers and intelligent buildings by seamlessly integrating high-performance fiber optic and copper connectivity within a single 1U rack space. This innovative solution eliminates the need for separate panels, saving valuable space and simplifying network deployments.

“We are proud to receive this prestigious recognition from the Business Intelligence Group,” said Henry Siemon, President & CEO of Siemon. “The LightVerse Copper/Fiber Combo Patch Panel embodies our commitment to continuous innovation, providing our customers with the agility and efficiency they need to thrive in today’s hyper-connected world.”

“Innovation is driving our society,” said Maria Jimenez, chief nominations officer of the Business Intelligence Group. “We are thrilled to be honoring Siemon as they are leading by example and improving the lives of so many.”

Organizations from across the globe submitted their recent innovations for consideration in the BIG Innovation Awards. Nominations were then judged by a select group of business leaders and executives who volunteered their time and expertise to score submissions.

The LightVerse Copper/Fiber Combo Patch Panel is just one example of Siemon's unwavering commitment to innovation. The company invests heavily in research and development, continuously pushing the boundaries of what's possible in the network infrastructure landscape.

### About Business Intelligence Group

The [Business Intelligence Group](#) was founded with the mission of recognizing true talent and superior performance in the business world. Unlike other [industry award programs](#), these programs are judged by business executives having experience and knowledge. The organization's proprietary and unique scoring system selectively measures performance across multiple business domains and then rewards those companies whose achievements stand above those of their peers.

### About Siemon

Established in 1903, Siemon is an industry leader specializing in the design and manufacture of high-quality, high-performance IT infrastructure solutions and services for Data Centers, LANs, and Intelligent Buildings. Headquartered in Connecticut, USA, with global sales, technical, and logistics expertise spanning 150 countries, Siemon offers the most comprehensive suites of copper and optical fiber cabling systems, racks, cable management, and Intelligent Infrastructure Management solutions. With more than 400 patents specific to structured cabling, Siemon Labs invests heavily in R&D and the development of Industry Standards, underlining the company's long-standing commitment to its customers and the industry. Through an ongoing commitment to waste and energy reduction, Siemon's environmental sustainability benchmarks are unparalleled in the industry.

Siemon OEM Technologies is a Siemon business unit comprised of a team of dedicated technical sales professionals supported by Siemon Labs, mechanical, electrical, and signal integrity engineers committed to solving industry and customer-driven interconnect challenges. We provide custom network infrastructure solutions to OEMs, Leading Manufacturers, Value-Added Resellers, and System Integrators.
