

NAED To Host First-Ever Free Virtual Preferred Technology and Service Provider Showcase

NAED has just created a [Preferred Provider Directory](#), designed to give distributors and manufacturers a quick and easy guide to the broad range of technology products and services they need in order to succeed in today's highly digitized and competitive market.

Companies in the Preferred Provider Directory will host presentations on their capabilities and the ways they can assist you with your current and future needs on June 6 and 7, 2023. The virtual presentations will be followed by the opportunity to meet with the Preferred Providers in B2B meetings. NAED's Preferred Providers currently include Avalon CSC, Conexiom, ElectricSmarts Network, epaCUBE, IDEA, and Infor.

Current NAED Preferred Providers can help distributors and manufacturers in a variety of areas, including Consulting, Data Enablement, Digital Integration/Transformation, ERP, Finance, Learning Management System (LMS), Marketing, PaaS, Product Content, Project Management, Sales Team, and Supply Chain Management. Additional Preferred Provider applications are in process, and we anticipate Preferred Providers in a total of twenty-six categories very soon.

We would like to invite you to join the Virtual Preferred Technology and Service Provider Showcase for free.
